

MASTER OF SCIENCE IN FISHERIES AND AQUACULTURE MANAGEMENT AND ECONOMICS (NOMA-FAME)

About

NOMA-FAME is an MSc Program in Fisheries and Aquaculture Economics and Management and shall contribute to meeting the needs of human resources in fisheries economics and aquaculture in Vietnam and other Asian developing countries.

Mission

- 1) To meet needs of human resources in fisheries economics and aquaculture in Vietnam and in some other developing countries, specifically:
 - + To provide students, for their work in both private businesses and public institutions, with skills in economics and business administration, while environmental and social limits to economic development and trade will be equally focused on.
 - + To offer opportunities for building up capacity of the NTU Staff via participating in either teaching or studying courses offered by this MSc program, then, contributing to the sustainable development of NTU in particular and Vietnam's fisheries as a whole.
- 2) To enhance and enrich Norwegian staff's experience of specific conditions in Vietnam's and partner countries' fisheries that can be considered representative of those in the developing world. This acquired knowledge can be integrated in their profession work at home and abroad.
- 3) To set conditions for the regional academic cooperation that further contributes to the common resolution of problems in Asian fisheries.

Description

This master degree program **is offered by the Norwegian College of Fisheries Science (NCFS), Faculty of Bioscience, Fisheries and Economics at the University of Tromsø**, in cooperation with Nha Trang University, Vietnam.
