SECTION 2: READING COMPREHENSION (30 Điểm)

Instruction: The reading consists of four passages. Read each passage carefully and then answer the questions that follow. Write your answer in the provided space.

PASSAGE 1

During the teenage years, many young people can at times be difficult to talk to. They

often seem to dislike being questioned. They may seem unwilling to talk about their work in school. This is a normal development at this age, though it can be very hard for parents to understand. It is part of becoming independent of teenagers trying to be adult while they are still growing up. Young people are usually more willing to talk if they believe that questions are asked out of real interest and not because people are trying to check up on them.

Parents should do their best to talk to their sons and daughters about school work and future plan but should not push them to talk if they don't want to. Parents should also watch for the danger signs: some young people trying to be adult may experiment with sex, drugs, alcohol or smoking. Parents need to watch for any signs of unusual behaviour which may be connected with these and get help if necessary.

PASSAGE 2

Education is not an end, but a means to an end. In other words, we do not educate children only for the purpose of educating them; our purpose is to fit them for life. As soon as we realize this fact, we will understand that it is very important to choose a system of education which will really prepare children for life.

In fact, when we say that all of us must be educated to fit us for life, it means that we must be educated in such a way that, firstly, each of us can do whatever job is suited to his brain and ability, and, secondly, that we can realize that all jobs are necessary to society.

1. Is education an end or means to an end?
